

To Disc Golf Working Group Members,

Shortly after the tree cutting began in Leddy Park a group of city residents and park users started meeting regularly to share concerns, research, and news about the disc golf project in the park.

These group meetings and discussions continued through the fall and winter. When the Disc Golf Working Group was appointed by the Burlington Parks & Recreation Commission, representatives were invited to participate in these meetings.

Over time, the group compiled a volume of material including historical information pertaining to Leddy Park, Burlington city planning documents, official reports and plans related to Leddy Park, disc golf course design information, and disc golf related news, issues and stories from other cities and towns.

The research done by this group forms the basis of our recommendations regarding disc golf in Leddy Park. The recommendations are supported by source documents attached as exhibits.

These recommendations have the endorsement of Pat Kearney, Joanne Hunt, and Greg Jenkins of the Disc Golf Working Group. We hope that other working group members will be able to support the recommendations as well.

Thank you for your service and your consideration of this important matter.

Regards,

Lincoln Mead
